

Job Title: Service Engineer – Construction Equipment

Location: Navi Mumbai, Maharashtra

Department: Service & Technical Support

Reporting To: Technical Head

Employment Type: Full-Time

About MECTEC

MECTEC is a fast-growing sales and service company based in Navi Mumbai, serving India's booming infrastructure and construction market. We specialize in **new and pre-owned tower cranes, construction hoists, retractable loading platforms, load cells, and anti-collision systems**, catering to civil contractors, developers, builders, and rental companies.

Job Objective

To provide **on-site installation, commissioning, maintenance, and breakdown support** for MECTEC's range of construction equipment, ensuring **high service uptime and client satisfaction**.

Key Responsibilities

- **Install and commission** tower cranes, construction hoists, and safety systems at client sites.
 - Perform **routine servicing and preventive maintenance** as per schedule.
 - Troubleshoot and resolve **mechanical, electrical, and control-related issues** on-site.
 - Maintain **service reports, logs, and checklists** for each job.
 - Coordinate with clients and internal teams to ensure **smooth execution of work**.
 - Provide **technical support** during equipment inspection, AMC visits, or emergency calls.
 - Ensure compliance with **safety standards and protocols** at all times.
 - Maintain and report spare parts usage and **inventory requirements**.
-

Qualifications and Experience

- **Diploma / ITI / Degree** in Mechanical, Electrical, or Mechatronics Engineering.
- **2–5 years** of experience in service/maintenance of construction or industrial machinery.
- Experience with **tower cranes, hoists, lifting equipment**, or similar machinery is preferred.

- Ability to **read wiring diagrams**, operate testing tools, and handle troubleshooting independently.
 - Willingness to **travel to construction sites across India** as needed.
-

Skills Required

- Strong problem-solving and analytical skills
 - Excellent communication and client interaction ability
 - Hands-on knowledge of mechanical & electrical systems
 - Familiarity with safety practices in construction environments
 - Ability to work under pressure and meet deadlines
-

What We Offer

- Competitive salary and allowances
 - Training and certification on advanced equipment
 - Exposure to large infrastructure projects
 - A supportive, growth-oriented team environment
-
